

STATEMENT OF PURPOSE

RS28126 / S1011

The purpose of this legislation is to improve the way Idaho adopts new datums and mapping projections defining Idaho State Plane Coordinates and to align with modern uses of measurements and geographic data. It also will remove the requirement for an annual report. The performance report required of all agencies replaces the annual report.

FISCAL NOTE

There is no fiscal impact to the amendment as this legislation replaces the prior state plane coordinate legislation. The legislation primarily addresses standards used to complete mapping using the latest technology and datums provided by the National Geodetic Survey. The annual report information is provided in the performance report.
